**Directions (5-11): Read the following passage and answer the questions given below. Some words are highlighted to help you answer some of the questions.**

New research by Gates Foundation and International Development Research Center, published on International Women's Day, has revealed the **magnitude** of the unpaid care burden that women across the world bear and which has only gotten worse since the start of the Covid-19 pandemic. It has been found that women across the world are spending 30 hours per week exclusively on childcare - almost a second full-time job. In India, both women and men reported an increase in unpaid work at home and a decrease in time spent on paid work, but that extra time translated to more rest for men and more time spent on chores for women. This research report came after two other childcare reports launched earlier in March, both by the World Bank, on the importance of investing in childcare to build human capital, and an update on how laws and regulations \_\_\_\_\_ **(I)** \_\_\_\_\_ women's economic inclusion, including childcare.

This new research was produced in partnership with the International Development Research Centre (IDRC), the Growth and Economic Opportunities for Women (GrOW) East Africa initiative, and the Bill & Melinda Gates Foundation. It had a specific focus on supporting women in low- and middle-income countries. At the beginning of the research, we challenged ourselves to think if the childcare issue is a high-income country problem or a global problem. One of the hypotheses I had in my mind was that high-income countries tend to have nuclear families and may find childcare more pronounced as an issue. But what the report shows is that this is a universal problem. Describing the fallout from the closure of childcare centers in low-income settlements, "this has three effects: first, the women who were sending those children to the childcare centers have difficulty in working; second, the women from childcare centers have lost their jobs; and third, childcare burden shifts to adolescent girls. The last effect is particularly worrying as this will have long-term effects for this generation."

The shift of the burden to adolescent girls is worrying as they already shoulder a disproportionate amount of care burden compared to their male counterparts, in many low- and middle-income countries. I feel that a lot of the global conversations on childcare have been focused on high-income countries, but this is equally a priority for low- and middle-income countries. "It is surprising how little attention childcare has received over the years. The pandemic has laid bare the fissures and fractures in our society, which has been organized on the backs of women and women's unpaid work. With everybody around the world now thinking about how to **stimulate** the economy, women need to be central to economic recovery plans and progress.

- 4. Answer: C** Option C, a-d, “regulation” and “identification” need to be interchanged to make the sentence contextually and grammatically correct.
- 5. Ans.(d).** Among the given options, only (a) and (c) are correct with reference to the context of the given questions. While option (b) is incoherent because, for men, the extra time meant more rest, for women, it meant more time spent on housework. Refer to the fifth line of the first paragraph, “In India, both women and men reported an increase in unpaid work at home and a decrease in time spent on paid work, but that extra time translated to more rest for men and more time spent on chores for women.”
- 6. Ans.(b).** Among the given options, only statement (b) is correct with reference to the context of the given question. Refer to the fifth line of the second paragraph, “One of the hypotheses I had in my mind was that high-income countries tend to have nuclear families and may find childcare more pronounced as an issue.”
- 7. Ans.(e).** On referring to the third paragraph thoroughly, we can infer that all of the given statements are correct based on the information provided.
- 8. Ans.(e).** Here, “magnitude” means the great size or extent of something.
  - (a) enormity- the great or extreme scale, seriousness, or extent of something.
  - (b) dimension- a measurable extent of a particular kind, such as length.
  - (c) expanse- the distance to which something expands or can be expanded.
  - (d) vastness- very great extent or size; immensity.

**9. Ans.(c).** The concerned sentence states that the study followed two additional World Bank papers on the importance of investing in childcare to build human capital and an update on how laws and regulations influence women's economic inclusion, including childcare. Thus, we can infer that "influence" is the most appropriate word to fill in the given blank.

(a) conserve- protect from harm or destruction.

(b) detriment- the state of being harmed or damaged.

(c) influence- the power of causing an effect in indirect ways.

(d) pragmatic- dealing with things sensibly and realistically.

(e) dissenting- holding or expressing opinions that are at variance.

**10. Ans.(c).** On reading the starting lines of the third paragraph, we can infer that only statement (c) is correct with reference to the context of the given question. Refer to the starting lines of the third paragraph, "The shift of the burden to adolescent girls is worrying as they already shoulder a disproportionate amount of care burden compared to their male counterparts, in many low- and middle-income countries."

**11. Ans.(b).** Here, "stimulate" means to encourage or arouse interest or enthusiasm.

(b) sedative- having a soothing or calming effect.

(c) bracing- fresh and invigorating.

(d) trigger- cause (a device) to function.

(e) provoke- stimulate or give rise to a reaction or emotion.

**12. Answer: B;** cruised to a second successive victory' Here, 'cruise' depicts to proceed to something. The correct phrase will be 'cruised to'. So the correct answer is B.

**13. Answer: B;** 'issued orders permitting schools to reopen' 'Has' is followed by past participle form of verb. 'Permitting' is used as a gerund.

**14. Answer: B;** 'imperative to strategize for the sustained use of water'

Imperative means important or essential while imperial means royal.

Sustainable means continuous. It is contextually incorrect.

Prior to – until, before

According to the context, it is important to make strategy to encourage limited use of water.

**15. Answer: C;** 'shows potential in easing the symptoms' Here, 'potential' acts as a noun and preposition 'in' will be followed by present participle. The correct answer is option C.

**16. Answer: C** The sentence is in past perfect tense as the Indian team had defeated the England team in the last year. Thus, options A and B are incorrect. In case of option D, 'India' must be replaced with 'Indian' as it is used as an adjective. The only correct statement is option C. Thus, option C is the correct answer.

**17. Answer: E** Among the given sentences, (B) is the first sentence after rearrangement as it sets the theme of all other sentences which are based on Mr. Austin's visit to India. Further, it will be followed by (F) for which the hint can be drawn from 'his visit this early'. Statement (D) will follow (F) because the hint for this will be drawn from sentence (C), which mentions the sequence of areas. The statement (F) indicates the bilateral ties; (F) indicates the Indo-Pacific and finally (A) hints towards the Afghanistan issue. To conclude the passage (E) will be placed at last which mentions 'finally' indicating towards the concluding statement.

Therefore, the correct sequence will be BFDACE. Hence, option (E) is the most suitable answer choice.

**18. Answer: C** The correct sequence will be BFDACE. Hence, option (C) is the most suitable answer choice.

**19. Answer: C** The correct sequence will be BFDACE. Hence, option (C) is the most suitable answer choice.

**20. Answer: A** The correct sequence will be BFDACE. Hence, option (A) is the most suitable answer choice.

**21. Answer: B** The correct sequence will be BFDACE. Hence, option (B) is the most suitable answer choice.

**22. Answer: C** Out of the five given parts, part (c) has a grammatical error. Usage of (ASSESSING) is incorrect because here "to+first form of verb" i.e. to assess will be followed. So "assess" will be the correct word. Correction- "of Uttarakhand to assess the" Hence option C is the correct answer.

**Q23. Answer: A** Out of the five given parts, part (a) has a grammatical error. Usage of (MUCH) is incorrect because for countable nouns we always use 'many'. So "many" will be the correct word. Correction- "As many as 150 Industrial Training Institutes (ITIs)" Hence option A is the correct answer.

**24. Answer: D** Out of the five given parts, part (d) has a grammatical error. Usage of (have lead) is incorrect because "have" is followed by third form of the verb and the third form of lead will be led. So "led" will be the correct word.

Correction- "have led to food scarcity"

Hence option D is the correct answer.

**25. Answer: E** Out of the five given parts, part (e) has a grammatical error. Usage of verb (involving) is incorrect. (Involving) will be replaced by the noun (involvement)

Correction- "involvement in arms trafficking" Hence option E is the correct answer.

**26. Answer: D** Out of the five given parts, part (d) has a grammatical error. Usage of (were) is incorrect. Vaccination programme is singular so the verb that will be used is also singular. So "was" will be the correct word.

Correction- "was science-born"

Hence option D is the correct answer.

**27. Answer: D** Adamant means refusing to be persuaded to change one's mind.

If we look at the sentences given here, we can easily understand that in sentence C the context does not quite match with the word adamant.

We need a word which has a positive sense. So, it is incorrectly used here. Therefore, the correct answer is option D.

**28. Answer: C** Solution: Enervate means (lacking) or drained of energy or vitality. In sentence C it gives just the opposite sense of enervate and hence is incorrect.

Therefore, in the given question the correct answer is option C.

**29. Answer: B** Ubiquitous means present, appearing, or found everywhere.

In statement B, the word 'scarce' could have been used. The context and sense is completely opposite.

Therefore, in the given question the correct answer is option B.

**30. Answer: A** Negligent means failing to take proper care over something.

In the very first question we can see that there is a clear contradiction of senses. A person cannot be punctual as well as negligent both. Hence we can understand that it is incorrectly used here.

Therefore, in the given question the correct answer is option A.

**34: D** The word "occurring" is wrongly spelt and correct spelling should be "occurring"

**35: B** In place of "retrival" it should be "retrieval" which means the process of getting something back from somewhere.

**36: C** Among the given statements, only "if" can be used to connect the given statements. The correct statement thus formed will be: 'If you had guided him in his tough times, he would have been a success story'

- 37: A** Statements (I) and (II) can be joined together using the phrase 'Provided that' "Provided that" is the one that is more often used as a conjunction. It means that one thing happening is dependent on another thing happening. Therefore, the statement thus formed is : A bank account can have zero balance provided that the account holder should not have any outstanding payments.
- 38: B** The sentence which makes grammatical as well as contextual sense is using option(B)- Police have said crime has fallen by 28% since Britain was locked down to battle the coronavirus.
- 39: E** The set of sentences (I)-(II) can be joined to make a grammatically correct and contextual sentence using the connector although' ."Although the growth of the crop looks promising this year the number of people opting to grow it seems grim."
- 40: C** Statements (I) and (II) can be joined using the connector 'in contrast. The meaningful sentence thus formed is :The prices of housing units have sky rocketed in contrast land prices seem to have hit an all-time low.  
Hence, option (C) is the most viable answer choice.
