

Reasoning Ability & Computer Aptitude for Probationary Officers

SR	Question	Option1	Option2	Option3	Option4	Option5	Ans	Explanation
1	2, 6, 12, 20, 30, ?	40	42	49	48	49	2	The sequence is: $(1 \times 2) = 2$ $(2 \times 3) = 6$ $(3 \times 4) = 12$ $(4 \times 5) = 20$ $(5 \times 6) = 30$ $(6 \times 7) = 42$
Directions (2-4) In each of the following questions assuming the given statements to be true, find which of the two conclusions I and II given below is/are definitely true and give your answer accordingly. (a) If, I is true (b) If, II is true (c) If either I or II is true (d) If, neither I nor II is true (e) If, Both I and II are true.								
2	Statements: $J > M$, $N \leq R$, $R < M$ Conclusions: I $N < J$ II $N < M$	A	B	C	D	E	5	$J > M > R \geq N$, Both are true
3	Statements: $F < N$, $N = D$, $D > T$ Conclusions: I $F > T$ II $N > T$	A	B	C	D	E	2	$F < N = D > T$, only II is true.

4	Statements: $H > J$, $J < Y$, $Y \geq K$, $K = W$ Conclusions: $I W = Y$ II $K < J$	A	B	C	D	E	4	$H > J < Y \geq K = W$, none is true.
5	A correctly remembers that B's birthday is in the month of January. C correctly remembers B's birthday is after 15th January. D remembers that B's birthday is on a Wednesday and before 25th. If the first day of January that year was a Sunday, Then when is B's birthday?	18	22	17	20	23	1	The Wednesdays in the month fall on 4th, 11th, 18th, 25th. But as B's birthday is between 15th and 25th, the only possible date is 18th
6	In a certain code ROSE is written as #43\$ and FIRST is written as 5*#37. How is STORE written in that code?	473\$#	473#\$	374#\$	347#\$	None of these	3	$R = \#, O = 4, S = 3, E = \$, F = 5, I = *, T = 7$ STORE = 374#\$

Direction (7-11) Study the following information and answer the given questions.

Seven people, namely C, D, E, F, G, H and I like different cities namely, Surat, Kolkata, Bangalore, Mumbai, Ranchi, Delhi and PATNA. Each of them studies in either of three schools viz. DAS, RIS and VCS with atleast two of them in a school. F studies with the one who likes Bangalore in RIS. The one who likes Delhi studies only with H. H does not like Bangalore. C studies with those who like Surat and PATNA. C does not study with F. E studies only with the one who likes Mumbai. The one who likes Mumbai does not study with the one who likes Delhi. More than one person studies with D. D does not like PATNA. Both I and the one who likes Ranchi study in the same school but not in DAS. H does not like Ranchi.

7	Which of the following combinations represents the school in which E studies and the city he likes ?	DAS-Bangalore	RIS-Bangalore	DAS-Kolkata	VCS Delhi	RIS-Delhi	2
8	Which of the following cities does G like ?	PATNA	Ranchi	Mumbai	Delhi	Surat	4
9	Four of the following five are alike in a certain way as per the given arrangement and hence form a group. Which of the following does not belong to that group	DF	CI	HG	FE	ID	1
10	Who amongst the following likes Kolkata ?	F	H	I	C	D	2
11	Who amongst the following likes Kolkata ?	The one who likes Delhi and Bangalore	The one who likes Ranchi and Mumbai	The one who likes Delhi, Mumbai and Kolkata	The one who likes PATNA, Surat and Kolkata	The one who likes Surat, PATNA and Ranchi	5

School	Person	City
DAS	H	KOLKATA
	G	DELHI
RIS	F	MUMBAI
	E	BANGLORE
VCS	C	RANCHI
	D	SURAT
	I	PATNA

Direction (12-16): In each question below are given some statements followed by some conclusions. Read all the conclusions and then decide which of the given conclusions logically follows/follow from the given statements, disregarding commonly known facts.

12	Statement: Quality comes with a price. India is spending a lot for education. Conclusions: (I). Soon improvement in the quality of education in India will happen. (II). Only funding can improve the quality of education.	Only conclusion (I) is valid	Only conclusion (II) is valid	Either conclusion (I) or (II) is valid	Neither conclusion (I) nor (II) is valid	Both the conclusions are valid	1	According to the given statement, to get quality education, one needs to spend much and India is spending much for quality education. Therefore, it is for sure that the quality of education is going to improve in near future. Hence conclusion I is valid. Conclusion (II) however; is not valid as the statement does not mention funding or money as being the only option to improve quality.
13	Statements: (I). Some parrots are owls (II). All owls are pigeons (III). All pigeons are snakes Conclusions: (I). Some parrots are pigeons (II). All pigeons are owls (III). All owls are snakes	Only conclusion (II) is valid	Only conclusion (I) and (III) are valid	Only conclusion (I) is valid	All the conclusions are valid	None of these	2	

14	Statements: Some actors are singers. All the singers are dancers. Conclusions: (I) Some actors are dancers. (II) No singer is actor.	If only conclusion (I) follows	If only conclusion (II) follows	If both conclusions (I) and (II) follow.	If neither conclusion (I) nor (II) follows	None of these.	1	Actors Dancers Singers (or) Singers Dancers Actors Only (1) follows.
15	Statements: - All the harmoniums are instruments. All the instruments are guitar. Conclusions: (I) All the guitar are instruments. (II) All the harmoniums are guitar	Only conclusion (I) is true	Only conclusion (II) are true	Both conclusion (I) and (II) are true	Either conclusion (I) or (II) is true	None of these.	2	Harmoniums Instrument Guitar
16	Statements: Some pizzas are pasta. All pastas are macaronis. Some macaronis are pastries. Conclusions: I. All pizzas being macaronis is a possibility. II. All pastas are pizzas.	if only conclusion (I) follows	if only conclusion (II) follows	if either conclusion (I) or (II) follows	if neither conclusion (I) nor (II) follows	None of these.	1	Pizza Pasta Macaronis Pastry Some pizzas are pastas – converse – Some pastas are pizzas. Hence, conclusion II does not follow. Hence, option 1 is correct

17	If each vowel of the word WEBPAGE is substituted with next letter of the English alphabetical series and each consonant is substituted with the letter preceding it, then which of the following letters will appear thrice in the new word formed?	V	Q	G	A	F	5	Correct option is 5 ---->F We have, W E B P A G E Now, changing vowels with the next alphabet and consonants with the preceding alphabet, we get VFAOBFF ∴ Letter F appears thrice.
18	Among five friends Mahesh is taller than Kunal but not tall as yash. Hrithik is taller than Yash but smaller than Abhishek. If they stand in increasing order of their heights, who will be first in line?	Abhishek	Mahesh	Kunal	Yash	Hrithik	3	Yash > Mahesh < Kunal... (i) Abhishek > Harithik > yash ... (ii) From (i) and (ii), we have Kunal < Mahesh < Yash < Hrithik < Abhishek Obviously 'Kunal' will be the required answer.

(19-20): The following questions consist of two words each that have a certain relationship to each other, followed by lettered pair of words . Select the lettered pair that has the same relationship as the original pair of words

19	Agenda : Meeting	Footnote: Article	Map: Scale	Progra mme: Functio n	Perform ance: Ticket	None of these	3	First contains the details of the second.
20	Biography: Autobiography	Mobile:A utomobile	Author: Performe r	Memoir s: History	Testimo ny: Confess ion	None of these	4	A biography is a person's life story written by someone else; whereas autobiography is one's story written oneself. Similarly, testimony is a solemn declaration of one's wrong doing by someone; while confession is one's claim of oneself being a wrong doer
21	SMTP stands for	Switch Mode Transfer Program	Simple Messge Tansfer Program	Safe Mode Transfer Progra m	Simple Mail Transfer program	Switch Mail Transfer protocol	4	

(22-25): Study the following letter / digits series to answer the following questions:

F 6 Z 7 1 T 3 U X R 5 2 9 P 4 B A 7 8 D 4 6 F G H 2 P 3 Q R

22	How many letters are there in the series which are immediately preceded as well as immediately followed by a number	3	4	2	5	6	4	Applicable combination would be digit-letter-digit. Required combinations would be 6 Z 7 , 1 T 3, 9 P 4, 8 D 4, 2 P 3- i.e 5 such combinations.
23	How many digits are there in the series which are immediately preceded by a digit and immediately followed by a letter?	5	4	2	7	6	2	Applicable combination would be digit-digit- letter. Required combinations would be 7 1 T, 2 9 P , 7 8 D , 4 6 F i.e 4 such combinations.
24	If all the digits are dropped from the series and the order of the letters is reversed , which letter will be sixth to the right of fifth letter from the left?	X	F	R	G	T	3	Sixth to the right of the fifth letter from the left means $(5+6)=11$ th letter from the letter in the reversed series(among letters) or 11th letter from the right in the original series(among letters) . R is the required letter.
25	In a shop , there are 4 different dolls of different heights P,Q, R and S. S is neither as tall P nor as short as R. Q is shorter than S but taller than R. If Jyoti wants to purchase the tallest doll, which one should she purchase	Only Q	Only P	Either P or S	Either Q or S	Either R or Q	2	S is not as tall as P => S is shorter than P i.e $S < P$; S is not as short as R=> S is taller than R i.e $S > R$ Q is shorter than S but taller than R => $R < Q < S$, Thus we have: $R < Q < S < P$. So, P is the tallest doll. D

(26-30) Study the given information carefully to answer the given questions

In a certain code 'it is rush hour traffic' is written as 'sa le do mi ru' 'go to school' is written as 'be no pa', 'one hour to go' is written as 'mi fi pa be', rush to one' is written as 'fi be sa' and 'traffic is fine' is written as 'ga ru do'.

26	What is the code for 'fine'?	ga	ru	pa	do	None of these	1	Word It fine rush hour traffic/is to one go school Code le ga sa mi ru/do be fi pa no	
27	'mi fi le' would mean	it one to	to rush one	rush hour it	it one hour	None of these	4		
28	What does 'sa' stand for?	Rush	Traffic	It	Is	hour	1		
29	'ru be pa' would means:	traffic to go	traffic is to	way is traffic	to traffic way	fine is traffic	1		
30	What is the code for 'school hour'?	pa fi	no pa	no mi	ga pa	be ga	3		

Directions (31-33): Study the following information carefully and answer the questions given below: - 'A @ B' means 'A is sister of B' 'A % B' means 'A is son of B' 'A # B' means 'A is father of B' 'A \$ B' means 'A is mother of B'								
31	How is D related to W in the given expression? T @ Q % D \$ P # W	Mother	Grandfather	Grandmother	Can't be determined	None of these	3	D(Mother)-->P(Father) -->W. Hence, D is grandmother of W.
32	How is A related to B in the given expression? V \$ B # E @ M % A	Husband	Brother	Son	Wife	None of these	4	B(Father)-->E(Sister)-->M(Son)<--A. Hence, A is wife of B.
33	Which of the following symbols should come in place of the question mark (?) to make the expression H is grandfather of E? D % H # T ? K # E	(@)	(%)	(\$)	(#)	Can't be determined	1	H(Father)-->T(Sister)-->K(Father)-->E. Hence, H is Grandfather of E.
34	In a certain code, GERMINATION is written as IMGRENNOAIT. How is ESTABLISHED written in that code?	BEATSLEIHS	BAETSLEDIHS	BATESLDEIHS	BAETSLDEIHS	None of these	4	The middle letter remains unaltered in the code. Let us label the five letters before the middle letter as well as those after it, from 1 to 5. Then, the code contains the letters of each group in the order, 5, 4, 1, 3, 2. Thus we have: E S T A B L I S H E D ==> B A E T S L D E I H S 1 2 3 4 5 1 2 3 4 5 5 4 1 3 2 2 5 4 1 3 2
35	Captain is related to Team in the same way as Director is related to which of the following	Customer	Employee	Organisation	Supervisor	Union	3	

36	If 17 th March 2025 falls on a Friday, then what will be the day for 1 st December 2028?	Monday	Tuesday	Wednesday	Thursday	Friday	2	Explanation: If 17 th March 2025 is a Friday, then 25 th March 2028 will be a Tuesday because there will be a 1 day gain every year (since $365 = 1 + 364$ and 364 is divisible by 7) and 2028 is a leap year making 1 extra day in February. Now day gains in upcoming months are: March (3), April (2), May (3), June (2), July (3), August (3), September (2), October (3) = Total 21 days or $7 \times 3 = 21 \Rightarrow 0$ day gain. This makes November 17 2028 a Tuesday. December 1 is 14 days away from November 17. Hence December 1 will also be a Tuesday
37	Four among the following letter pairs are similar in some manner and one is different. Find the odd one.	RLEA	EEAA	AERL	LER A	RELA	2	Except (b), in all other options, the letters R, E, A, L are arranged in a jumbled form. So, option (b) is the odd from the rest.

Directions (38-40): Study the following information carefully and answer the questions given below

Eight persons viz. Abhishek, Prachi, Rahul, Teja, Narendra, Pratham, Nitish and Palash are hired in the bank at different posts viz. Assistant Manager (AM), CEO, Clerical staff (Clerk), Deputy Manager (DM), General manager (GM), Non-clerical staff (Non-clerk), Principal officer (PO) and Senior officer (SO) in different months from January to August in the same year, but not necessarily in the same order. Only one person with one designation is hired in the same month.

Pratham was hired in the month having less than 31 days and two months before the one who is hired as CEO. Only two persons were hired between the one who is hired as CEO and Teja where at least one person was hired before Teja. The one who is hired as Senior officer (SO) is hired immediately before Teja. Palash was hired in the month immediately before the one who is hired as Senior officer (SO). The number of persons hired before Palash is the same as the number of persons hired after Nitish, who is hired immediately after the one who is hired as Non-clerical staff (Non-clerk). Abhishek who is hired as Clerical staff (Clerk), was hired two months before the one who is hired for Non-clerical staff. Narendra was hired in the month having 31 days but not in the last month. The one who is hired as Principal officer (PO) is hired immediately after the one who is hired as Deputy Manager (DM). The one who is hired as Assistant Manager (AM) is hired in one of the months after the one who is hired as Non-clerical staff (Non-clerk). Rahul was neither hired as Senior officer (SO) nor hired in the month having 31 days.

38	Who among the following is hired as the CEO ?	Teja	Rahul	Prathan	Cannot be determined	Abhishek	2	Month	Person	Designation	
								January	Palash	GM	
								February	Prachi	SO	
39	Who among the following people was hired in January	The one who is hired as Principal officer	Pratham	The one who is hired as General manager	Cannot be determined	None of these	3	March	Teja	DM	
								April	Pratham	PO	
								May	Abhishek	Clerk	
								June	Rahul	CEO	
								July	Narendra	Non-clerk	
40	The number of persons hired before Abhishek is two persons less than the number of persons hired after the one who is hired as _____.	Senior officer	Deputy manager	Non-clerical staff	No such person	None of the above	1	August	Nitish	AM
